

QUOTE OF THE DAY

The most disrespected person in America is the black woman. The most unprotected person in America is the black woman. The most neglected person in America is the black woman.

I think Malcolm X was right when he said Black Women are the most disrespected, I think black men are treated so badly by the rest of the world that they lash out on the people that they think less on. There's also other races treating black women badly then we have other black females putting each other down instead of coming together

Notes:

Women are already treated badly, doesn't matter which race. Just being a Black woman is even worst

Out of every race of woman black woman are the most neglected

Black women are the most disrespected people in america

Topic of the day

Relationship between the black man and the black woman should be very important. If it isn't it becomes a problem because if you want a good community you would need the two to get along.
