

QUOTE OF THE DAY

The quote of the day was by John Henrik Clarke and it goes over how your mindset will impact your situation. For example if someone makes you think poorly of yourself and then they enslaves you. After you become free your going always be enslave because for you to become free your mindset has to be free

TOPIC OF THE DAY

-What does it mean to be a black man

To be a Black man you have to be better than everyone one else because there is a target on your back. You have to always prove people wrong and you have to strive to be better. I think there is more that is expected for us.
