

## Quote of the day

"IF YOU STAY READY YOU DON'T HAVE TO GET READY"

Will Smith

To me this quote means that if you're always prepared you don't have to ever get prepared. Most of the successful people in this world are always prepared for everything, for example someone who is always prepared when they meet someone that will help them (networking) they will always be prepared for connections.

## TOPIC OF THE DAY

The topic of the day is staying prepared, what this means to me is that you are always ready for everything. This is important because it shows how someone can adapt.
